

JULY NEWS

HIGHLIGHT

We are excited to see the growth the children have made as we move into the fifth month of the program! Some highlights include:

- Children have developed a strong sense of routine and are settling well into daily expectations.
- Daily transitions are becoming smoother, with children moving between activities more confidently and requiring less support.
- Children are becoming increasingly comfortable sharing the learning space with their peers, leading to more positive social interactions and cooperative play.
- Peer relationships continue to strengthen as children engage with one another more frequently through play, communication, and shared experiences.
- Confidence in fine motor activities has grown significantly, with children showing increased independence in completing age-appropriate tasks.
- Children are demonstrating greater persistence when faced with new challenges and are taking pride in completing activities on their own.
- Communication skills continue to develop, with children increasingly expressing their wants and needs in a calm, respectful, and appropriate manner.
- Children are making positive progress in learning to share, take turns, and problem-solve with support, fostering a more collaborative classroom environment.
- Self-confidence is growing as children become more willing to participate in group activities, explore new experiences, and try unfamiliar tasks.
- The classroom environment has become more settled and positive, supporting children's emotional, social, and developmental growth.
- Families have shared positive feedback, noting meaningful improvements in their children's confidence, communication, and independence at home.
- Parents consistently report that their children are excited to attend the TILP program each day, reflecting the strong relationships, engaging environment, and positive experiences they are having.

We are proud of the progress the children have made and look forward to continuing to support their growth in the months ahead!

LEARNING AND DEVELOPMENT FOCUS

Things We Focused On This Month:

This month, we continued to support the children's growth through a variety of structured and play-based learning opportunities. Some of our focus areas included:

- **Table Activities:** This month, we focused on strengthening fine motor skills, attention, and independence through a variety of structured table activities. Children participated in tracing, cutting, gluing, dot marker worksheets, number identification, and counting activities. These experiences supported pencil grasp, hand strength, bilateral coordination, early literacy and numeracy skills, and confidence in completing tasks with increasing independence.
- **Sensory and Motor Exploration:** Children engaged in sensory and motor activities designed to build body awareness, coordination, and self-regulation. Obstacle courses encouraged balance, motor planning, coordination, and following multi-step directions, while therapeutic activities strengthened hand muscles and fine motor control. Sensory experiences provided opportunities for exploration, problem-solving, and developing confidence through movement and hands-on play.
- **Following Daily Routines:** We continued to reinforce consistent daily routines to help children feel secure, confident, and successful throughout the program. Predictable schedules supported independence as children practiced following classroom expectations, participating in group activities, completing daily tasks, and taking responsibility for their belongings. Familiar routines also helped children anticipate what came next, promoting engagement and reducing uncertainty.
- **Transitions:** Throughout the month, we focused on supporting smooth transitions between activities by using consistent expectations, visual and verbal cues, and positive reinforcement. Children demonstrated growing flexibility when moving from one activity to another, requiring less adult support and showing increased readiness to participate in each part of the day. These skills continue to build self-regulation and adaptability.
- **Social Play:** Social play remained a key focus as children participated in board games, cooperative activities, and structured games that promoted sharing, turn-taking, communication, and teamwork. Children were encouraged to express their wants and needs using calm, respectful language while practicing problem-solving with peers. These experiences helped strengthen friendships, build confidence in social interactions, and foster a positive, inclusive learning environment.

We are proud of the progress the children are making and look forward to continuing to build on these skills in the coming months!

IMPORTANT NOTES AND REMINDERS

- August 3rd -BC Day- PRO D Day
- Please bring more than two snacks for your child (nut-free).
